

Acidol® FF

Auxiliary agents > INDUSTRIAL WASHING

GENERAL INFORMATION

Acidol® FF is a professional, acidic product for foam cleaning of machines, equipment and rooms in the food industry.

PROPERTIES

Acidol® FF removes mineral and protein deposits and grease stains very well.

Thanks to the corrosion inhibitor used, the product does not cause blackening of metal elements.

Properly selected surface-active agents significantly improve the effectiveness and efficiency of washing.

APPLICATION

- acid washing of machines and devices in the food industry
- removal of mineral and protein deposits
- removal of grease and rust deposits and discoloration from fruits and vegetables
- washing walls, floors and tiles
- washing aluminum and stainless steel surfaces

Prepare a working solution with a concentration of 1 to 4% depending on the degree of contamination, dissolving 100 to 400 grams of Acidol® FF in 10 liters of water at a temperature of 20 to 40°C. Apply as foam using a foaming device or wash by immersion in the working solution. After approximately 10-15 minutes, rinse the surface thoroughly with clean water.
