

Degramet® PS

Metallurgy > ADDITIVES FOR ACIDIC BATHS

GENERAL INFORMATION

An additive supporting etching in aqueous solutions of hydrochloric, sulfuric and phosphoric acids.

PROPERTIES

Degramet® PS is used as an additive for degreasing, pickling, and other processes in the hydrochloric, sulfuric, and phosphoric acid environment. The product has excellent emulsifying properties for organic contaminants, thus supporting degreasing and pickling.

APPLICATION

Use as an additive supporting the removal of oil stains during pickling in hydrochloric, sulfuric and phosphoric acid solutions and in acidic degreasing baths for heavily oiled parts in order to improve the degreasing properties of the bath.
