

DEGRASOL

Fire protection › Degreasers - dispersants

GENERAL INFORMATION

An agent for degreasing and removing contamination with petroleum derivatives from asphalt and concrete surfaces.

PROPERTIES

DEGRASOL is a ready-to-use agent that, thanks to its carefully selected composition, thoroughly penetrates surfaces, washing away hydrophobic contamination. The ingredients used have excellent degreasing properties, so it can be used to remove oil stains. DEGRASOL has low-foaming properties, does not contain aggressive organic solvents, substances hazardous to the environment and is easily biodegradable.

APPLICATION

DEGRASOL is a ready-to-use agent intended for degreasing and removing contamination with petroleum derivatives from asphalt and concrete surfaces, road surfaces around diesel tanks, floors and machines in the event of hydraulic system failures; the agent is intended for use in car workshops, mineral oil trade, industry, service stations, car parks and underground garages, transport, enterprises, construction sites, petrol stations, fire brigades and technical rescue services, road maintenance, etc.

The information contained in this document is provided in good faith, based on our current knowledge and experience. We reserve the right to make changes as a result of technological progress and product improvements by the manufacturer. The suitability of the product for the intended use should be verified before use. All information, including technical support, is provided without any warranty and may change without notice. The parties explicitly agree that the customer accepts and explicitly releases us from all tortious, contractual or other liability for events arising in connection with the use of our products, information and technical support.
